Professional Summary

Data Analyst with 1+ years of experience in MIS reporting, financial analysis, business intelligence, and reporting automation across NBFC and IT environments. Skilled in Power BI, SQL, Advanced Excel, Python, DAX, and MySQL for data preparation, visualization, KPI tracking, and management reporting. Experienced in developing analytical solutions, transforming raw datasets into meaningful insights, and supporting operational and business decisions through accurate reporting.

Technical Skills

- **Analytics & Programming:** SQL, Python, Pandas, NumPy, Exploratory Data Analysis
- **BI & Visualization:** Power BI, Tableau, DAX, Advanced Excel, Data Visualization
- **Excel & Reporting:** PivotTables, Power Query, MIS Reporting, KPI Reporting, Automated Reporting
- **Database:** MySQL, SQL Queries, Data Extraction, Data Transformation
- **Data Management:** Data Cleaning, Data Modeling, ETL, Data Validation
- **Business Analytics:** Financial Analysis, Trend Analysis, Performance Monitoring, Management Reporting

Experience

Data Analyst – Kissht (NBFC)

2025–2026

- Automated monthly MIS reports using Excel and Power BI, reducing manual effort by 40%.
- Developed interactive analytical reports to monitor loan portfolio, delinquency ratios, collection efficiency, and branch-level results.
- Conducted aging analysis and branch-wise KPI reviews to support portfolio monitoring and credit risk assessment.
- Extracted and transformed financial records using SQL to improve reporting accuracy and deliver timely management information.

Data Analyst – Arcraft Infotech

2024–2025

- Built Power BI reports for business performance monitoring and management-level KPI visualization.
- Prepared and transformed datasets using SQL and Excel Power Query for recurring analytical requirements.
- Performed trend and variance analysis to identify business patterns and communicate actionable findings.
- Supported automated reporting solutions using Excel and Power BI to improve information accessibility.

Data Scientist Intern – SMEC Labs

2023–2024

- Conducted exploratory analysis and preprocessing of datasets using Python, Pandas, and NumPy.
- Applied feature engineering and machine learning techniques to develop and evaluate predictive models.

Projects

Sales & Profitability Analytics Dashboard – Power BI, DAX

- Developed a multi-page business intelligence solution covering sales, profit, customers, products, brands, salesmen, Emirates, and sales modes.
- Created DAX measures for Total Sales, Total Profit, Invoices, Average Order Value, quantity, and other business metrics.
- Examined monthly trends, customer contribution, product and brand results, salesman activity, and Cash/Credit/Sample transactions.
- Applied ABC, XYZ, and FSN techniques to classify products by contribution, variability, and movement.

Procurement Spend & Supplier Performance Dashboard – Advanced Excel

- Developed an Excel-based procurement reporting solution using 777 purchase-order records to assess supplier activity, spend, savings, quality, delivery, and compliance.
- Built KPI summaries covering order volume, purchase quantity, negotiated spend, savings percentage, defect rate, delivery time, and supplier compliance.
- Evaluated supplier and category results using PivotTables and visual reporting to identify spending patterns, savings opportunities, and quality concerns.

- Reviewed order status and delivery bands to monitor completed, pending, partially delivered, and cancelled purchases.
- Loan Portfolio & MIS Analytics Dashboard – Power BI, DAX**
- Created a financial reporting solution to monitor loan disbursement, outstanding balance, Portfolio at Risk (PAR), recovery rate, and delinquency.
- Developed DAX measures for branch-level analysis, recovery monitoring, and portfolio assessment.
- Laptop Sales & Specification Analysis – Power BI, DAX**
- Analyzed 1,200+ laptop records to examine pricing patterns, product specifications, and brand results.
- Used data modeling and DAX calculations to derive comparative product insights.

Education

Diploma in Data Science SMEC Labs, Kochi, Kerala	2023–2024
Bachelor of Computer Application University of Kerala, Thrissur, Kerala	2020–2023
